About Me

Application Development Team Lead

Application Development Team Lead - Front End Technologies with over 10+ years of professional experiences in User Interface Development using web technologies. Strong Developing Experience with **HTML/HTML5, SCSS (CSS/CSS3) & Bootstrap Framework**. Good Experience with **Cross Brower Compatibility** issues and Optimization for web, including CSS Sprites & best practice. Good Communication with ability to work independently or in a team environment. As Part of that i will be Develop SEO Based HTML templates. I will do performance improvements by optimizing HTML, SCSS and JavaScript's.

Also, I have Basic knowledge of Angular 6

Highlights

I have Created prototype for Existing Website which is having multiple themes. which is did like reverse operation. CSS to SCSS and HTML to Template using Twig.

Also, Setup Azure Server and Hosted with Prototype using Automated Tools like Gulp with Nodejs. Complete setup with Automated TFS Deployment. whenever the check in the prototype Changes.

Which is appreciated by Client.
